PROBLEM STATEMENT

- *Students lack a proper digital platform to present their skills and projects.*
- *Traditional resumes are static and less interactive.*

PROJECT OVERVIEW

- *The Student Portfolio is a web-based system where students can create a digital profile.*
- *It includes personal details, educational background, skills, certifications, projects, and extracurricular activities.*
- *The system provides an interactive and professional layout that acts as an online resume.*

Who are the end users?

- *Students – to showcase their skills and projects.*
- *Teachers – to assess student growth.*
- *Recruiters – to review student profiles for jobs/internships.*

TOOLS AND TECHNIQUES

- *Frontend: HTML, CSS, JavaScript*
  Backend: PHP / Node.js / Python
  Database: MySQL / MongoDB
  Version Control: GitHub

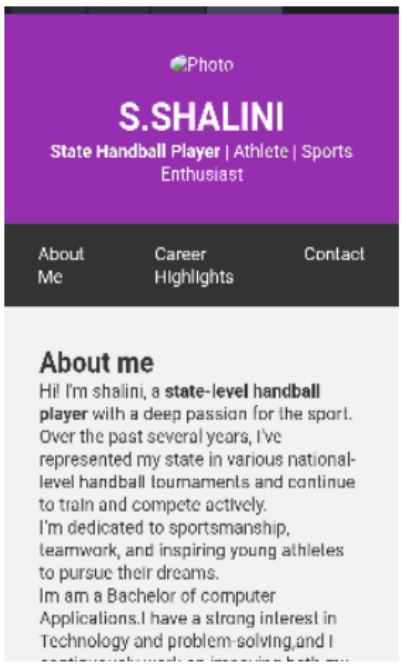
POTFOLIO DESIGN AND LAYOUT

- *Home Page: Student introduction and summary.*
- *About Section: Personal details and academic background*
- *Skills Section: Technical and soft skills displayed with progress bars/charts.*
- *Project Section: Detailed showcase of student projects with screenshots*
- *Contact Section: Email and social media links.*

FEATURES AND FUNCTIONALITY

- *Upload project screenshots, certificates, and resumes.*
- *Responsive design for mobile and desktop.*
- *Sharable portfolio link for recruiters.*
- *Secure login and data storage.*

RESULT AND SCREENSHOT



CONGRATULATIONS

- *The Student Portfolio provides a modern, digital way for students to present their achievements.*
- *It helps recruiters and institutions evaluate students beyond marks.*
- *The system enhances employability and makes the recruitment/selection process easier.*
